Slideway Oil 68 Technical Data Sheet V10/2026C

Mineral oil based slideway oil

Product code: Slideway Oil 68

Product Description:

Slideway Oil 68 is a specially designed slideway lubricant.

To be efficient, machine tool slideways must be parallel with the machine bed. Any tendency towards irregular oil film pressure and ‘slip stick’ action must be avoided as this adversely affects the machining operations.

Slideway Oil 68 has been manufactured from carefully selected base oils and anti-wear, extreme pressure and anti-corrosion additives. They also include special tacky and lubricity additives, which afford good lubricity even at low traverse speeds.

Benefits:

- Wide range of viscosities available
- Contains extreme pressure additives for arduous conditions
- Excellent lubricity
- Good corrosion protection

Application:

Slideway Oil 68 has been specially designed for machine tool slideway applications. It can be recommended for certain combined hydraulic and slideway systems.

Typical Test Data:

Slideway Oil 68	
Product Code	L037
ISO	68
Specific Gravity @ 15.6□C	0.880
Kinematic Viscosity @ 40□C (cSt)	69.16
Pour point (□C)	-11
Flash point (□C)	224
Appearance	Amber
